

CS 531 – Fall 2020

SECURITY IN CYBER-PHYSICAL SYSTEMS

QUIZ #5

10/01/2020

Pick one Industrial Network Protocol and sell it to me for my devices. Consider a scenario that you are working for a company that develops this protocol and my company is a potential buyer. Make sure you compare it with another protocol that provides similar functionalities and can be used within the same ICS devices.

Requirement: Consider only the protocols we have seen in class.

Hint: Advertisements usually do include advantages while do not mention about drawbacks.
